

Next generation flex feeders.

Upgrade your Agilis Flex feeder system.

Reliability and ease-of-use. Feed anything from small chip components to large ICs and connectors using Mycronic’s Agilis Flex feeders. Developed for simplicity, the Agilis Flex is every manufacturer’s best friend. Coupled together with the all new 15” bin, using the Agilis Flex feeders have never been easier.

BE PREPARED FOR ANYTHING

- Discover limitless possibilities with the Agilis Flex feeders. The introduction of Flex feeder Generation 2 has made significant steps forward in terms of improving reliability, durability and user friendliness.
- Mechanical alternations have improved the Flex feeder by reducing friction from the cover tape roll-off wheel, enabling a wide range of different tape types to experience similar and predictable friction.
- A completely new feeder head design results in better feeding reliability, eliminating stepping errors that could have been caused by heavy, damaged or non-standard reels.
- The Agilis feeder trade-in offer allows customers to purchase any number of Generation 2 Flex feeders and return the same number of used feeders, regardless of age or condition.

TECHNICAL REQUIREMENTS

- New Flex feeders are completely interchangeable with all previous feeder revisions.
- No additional hardware upgrade is required.
- Recommended to upgrade to the latest software version.

PART NUMBER	DESCRIPTION
4052911	Agilis feeder 8 Flex Generation 2
4052912	Agilis feeder 12 Flex Generation 2
4052913	Agilis feeder 16 Flex Generation 2
4052914	Agilis feeder 24 Flex Generation 2
4052915	Agilis feeder 32 Flex Generation 2
4052916	Agilis feeder 44 Flex Generation 2
4052917	Agilis feeder 56 Flex Generation 2
4052918	Agilis feeder 72 Flex Generation 2
4052919	Agilis feeder 88 Flex Generation 2
4052920	Agilis feeder 104 Flex Generation 2
4052921	Agilis feeder 120 Flex Generation 2
4052922	Agilis feeder 136 Flex Generation 2
4052923	Agilis feeder 152 Flex Generation 2
